

Approaching[★] Medicare?

If you have coverage under the Retiree Welfare Plan (RWP) and are approaching Medicare, this information is for you!

SilverScript[®]

RWP Prescription Drug Coverage

Medicare retirees have a Medicare Part D Prescription Drug Plan (PDP) under the RWP, called the SilverScript Employer PDP sponsored by The Midwest Operating Engineers (SilverScript). It is imperative that you enroll in Medicare timely and provide the Fund Office with a copy of your Medicare card as soon as you receive it, so you get automatically enrolled in SilverScript.

How to Provide Your Medicare Information to the Fund Office

- Call the Fund Office's Member Services Department at 708-579-6600
- Fax a copy of the Medicare card to the attention of the Fund Office's Benefits & Eligibility Group at 708-352-3310
- Mail a copy of the Medicare card to the Fund Office, Attention: Benefits & Eligibility Group 6150 Joliet Road, Countryside, IL 60525

Potential Impact on Your RWP Prescription Drug Coverage

Failure to enroll in Medicare timely and provide a copy of your Medicare card to the Fund Office will result in a loss of your prescription drug coverage under the Retiree Welfare Plan. You will continue to have RWP medical and dental coverage, but you will pay the full RWP premium amount.

What to Expect After Successful Enrollment Into SilverScript

You will begin receiving information regarding SilverScript prescription coverage. It is important that you read everything that you receive from the Fund Office and SilverScript.

In a separate mailing, you will receive a letter with a SilverScript MedicareRx ID card and a SilverScript effective date. Please begin presenting your SilverScript MedicareRx ID card at the pharmacy on or after your SilverScript effective date.
