

Case Management: Partnering with you for better health

High-quality healthcare is important – to you and your employer. That is why your health benefits include **Case Management** services from Valenz Care – to help you navigate your healthcare during times of serious illness or injury.

Available at no additional cost to you, this program matches you with a dedicated **Nurse Case Manager** who coordinates care and guides you through treatment, so you can focus on what matters most: returning to good health.

- Minimizes out-of-pocket costs by ensuring the right care, right place, right time
- Coordinates, schedules and navigates your care across multiple care settings
- Monitors your rehabilitation and recovery
- Ensures comprehensive care with one central point of contact
- Evaluates prescription drug regimens for safety, effectiveness, and lowest-cost options

For your convenience, enrollment in the Valenz Case Management program will occur automatically in the event of a serious illness or injury. Your dedicated Nurse Case Manager will contact you promptly to begin care coordination.

You can reach your Nurse Case Manager at **(855) 298-0493**.

This URAC-accredited program is brought to you by Valenz Care, a core module of the industry's only complete health administrative ecosystem, courtesy of the Midwest Operating Engineers Fringe Benefit Funds.
